V8 SERIES INSPIRATION

Designed from the heart of a Spanish artist, the Simon V8 series is a representation of the most modern western aesthetics. Simon V8 series involve two magnificent styles: Simon V8 Nature and Simon V8 Classic.

The Simon V8 Nature adopts natural pure glass for the frames, which is glittering and translucent bringing an outstanding, elegant and fresh feeling to luxury environments.

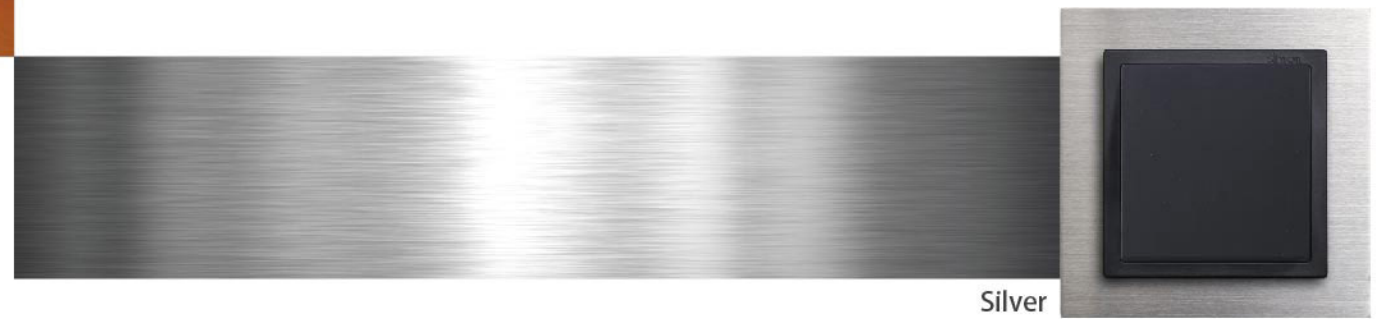

Simon V8 Nature has unique patented features (CN200420020630.7). The switch on/off pulse speed is 0.03 seconds, 50% faster than normal switches. Moreover, it avoids electric arc and has longer lifespan.

Simon V8 Classic inspired by the tradition and history of Spanish culture. Pure metallic frame provide a great strenght and an unique style.

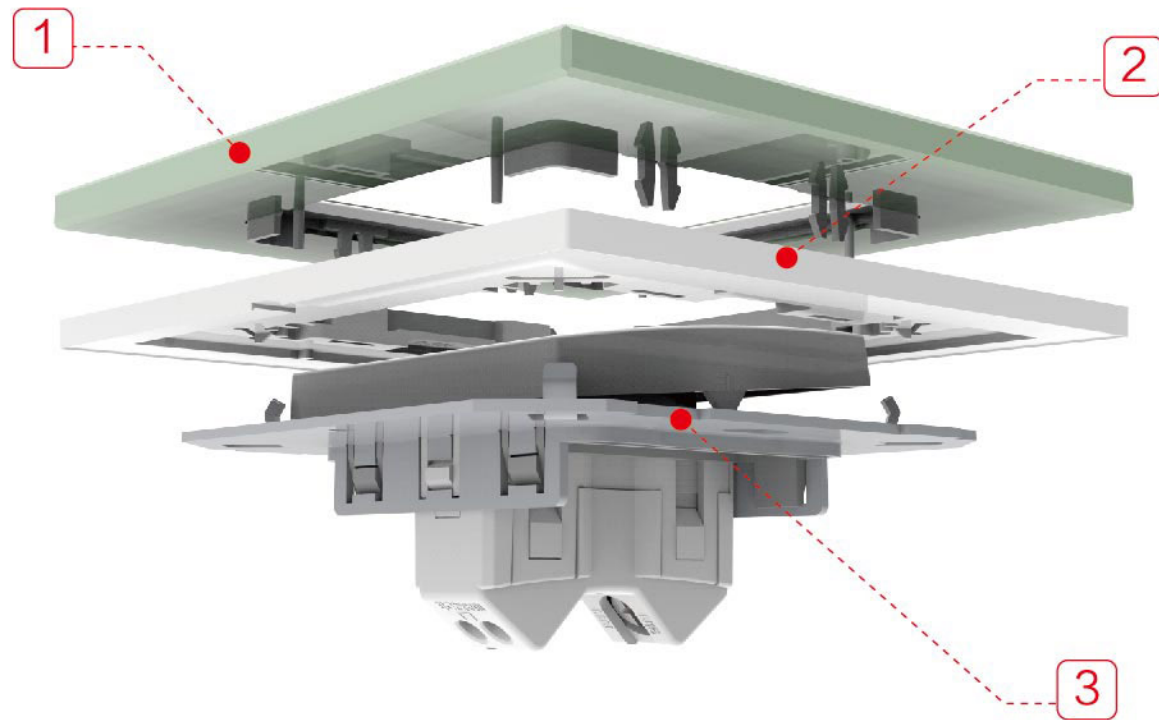

Nature

Classic

Inspired by the effect of the elements on materials, Simon V8 series, envelops emblematic spaces with a minimalist design and unique materials inspired by nature: glass and metal.

V8 series

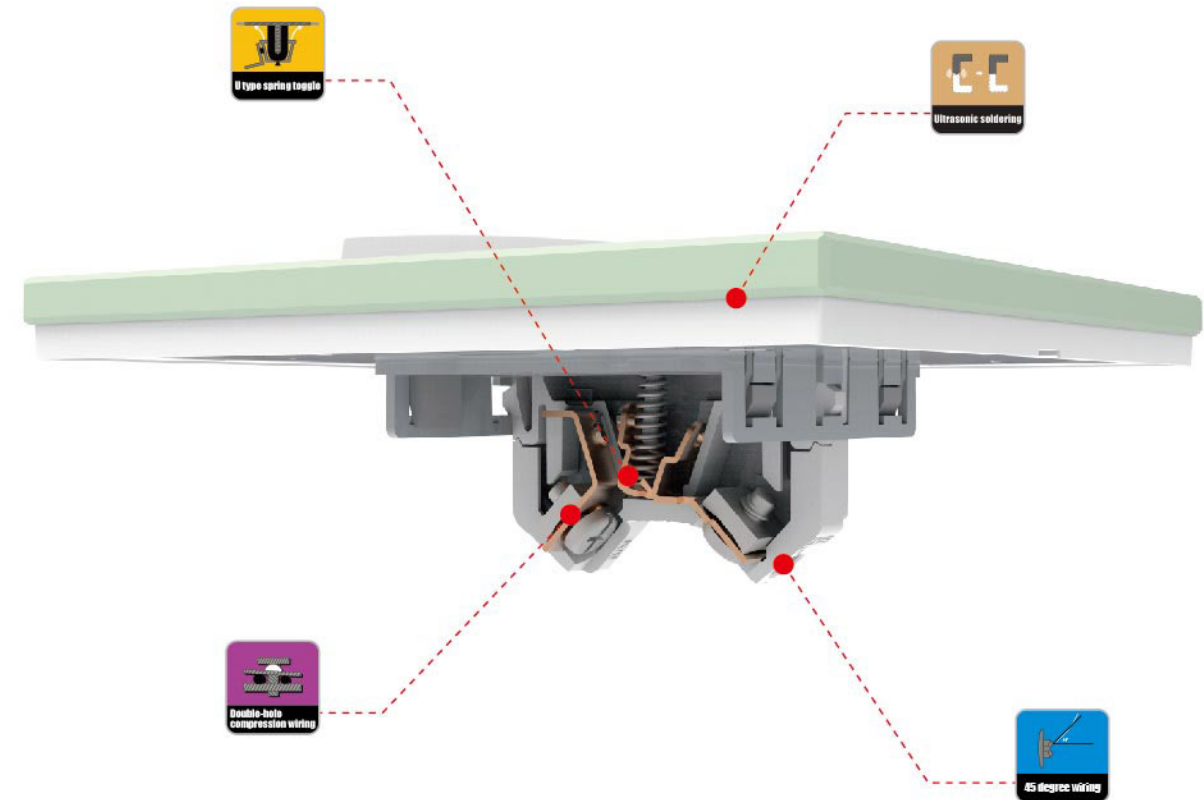

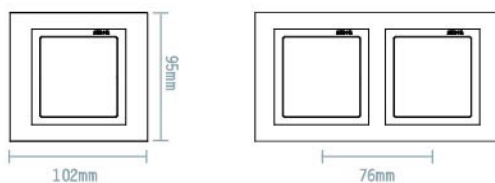

More protection: safer and durable

No:1
Glass/metal frame
Tempered glass/metal materials, glittering. It is strong and anti-abrasive.

No:2
PC structure Insulating layer
High quality PC plastic material from Bayer. The PC material is resistant to heat and transmits good elasticity. The double protection between the frame and the mechanism make it safer and durable.

No:3
Insulated steel baseboard
Resistant steel based board and stainless insulating coating base board. It is anti-corrosive with a strong base that allows better integration between the switch and the mounting box.

SIZE

Benefits

Ultrasonic soldering
More reliable and protects the environment.

U type spring toggle
With instant on/off and safer.

Double-hole compression wiring
Suitable for many types of cables.

45 degree wiring
Easy to do the wiring in a limited space. It reduces the installation time.

Color frames
Customized frames available in different colors, suitable for any environment.

Children safety lock
Designed to prevent children from getting electrocuted.

Whole current flow
The large section area gives excellent conductivity avoiding danger and overheats.

Multiple structure
Multi-gang frame, tidy and unique.

Environmental friendly
Recyclable and environmentally friendly materials.
